 - 5.6 We have also obtained information and explanations which were considered relevant, reasonable and necessary for our engagement from the executives and representatives of the respective companies.

6. Salient Features of the Scheme:

The salient features of the Scheme are as under:

- 6.1 The Scheme envisages the amalgamation of FFL with SSIL under sections 230-232 of the Act.
- 6.2 The management of the respective two companies believe that the restructuring would benefit the companies and its stake holders on account of the elimination of multiple entities which would result into greater administrative efficiency eliminates administrative functions and multiple record keeping, thus resulting in reduced expenditure, and significant reduction in the multiplicity of regulatory compliances.
- 6.3 "**Appointed Date**" means 1st April, 2018.
- 6.4 "**Effective Date**" means the date on which the authenticated copies or certified copies of the Orders of the National Company Law Tribunal (NCLT), sanctioning the Scheme are filed with the Registrar of Companies, Gujarat by the Transferor Company and the Transferee Company.
- 6.5 With effect from the Appointed Date all the assets (whether movable or immovable, real or personal, corporeal or incorporeal, present, future or contingent, tangible or intangible), investments and liabilities of the Transferor Company shall be transferred to and vested in the Transferee Company;

7. Valuation Methodology for Amalgamation:

- 7.1 To arrive at the share exchange swap ratio between the equity shares of Transferor Company and Transferee Company, it is necessary to value equity

shares of Transferor Company FFL in terms of the value of the equity shares of SSIL. These values are to be determined independently but on a relative basis, without considering the current transaction.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at, after taking into account its purpose and shareholding pattern in each of the two companies, using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner.

- 7.2 There are a number of techniques/methods for valuation of shares. According to a High court statement: "The valuation of shares is a technical matter which requires considerable skills and expertise. There are bound to be differences of opinion as to the correct value of shares of the company. Simply because it is possible to value the shares in a manner different from the one adopted in a given case, it cannot be said that the valuation agreed upon has been unfair."
- 7.3 However, following methods are widely used for determining the fair value of equity shares:
- i. Net Assets Value Method
 - ii. EBITDA Valuation Method
 - iii. Market Value Method (In the case of Listed Company);

i). Net Assets Value Method:

The asset based valuation technique is based on the value of the underlying net assets of the company, either on a Book Value basis or replacement cost basis. This method is also known as the Net Asset Valuation ("NAV") methodology.

Considering the nature of business of the company and other facts and based on the discussions with the management, including the fact that the two companies are closely held companies and as informed, owned by the same group and upon the proposed restructuring, none of the stake holders are likely to be adversely affected, the asset based valuation technique seems to be appropriate for valuing the shares of the two companies. In other words, net assets (operating business assets) have been valued using book value as reflected in the Audited Accounts as at 31st March, 2018.

ii). **EBITDA Valuation Method**

“EBITDA Multiplier” method is generally used for the Enterprise, which has lower profit in initial year. ‘EBITDA’ stands for “Earnings before Interest, Tax, Depreciation and Amortization”. It seems to use when business required substantial investment in initial year and with long gestation period.

Key Factor in this method is cash generated by the enterprise prior to all discretionary expenditures. The EBITDA is the measures of cash flows from operations that can be used to support debt payment least in the short term. It provides better estimation of “Optimal value” when capital expenditure earns unwise or substandard returns.

Earnings before interest, tax, depreciation, and amortization (EBITDA) are a measure of Enterprise profits and information in the Enterprise’s financial statements. A multiple of the EBITDA is used to value a Enterprise, especially in relation to its competitors, where the multiple to be used can be obtained from dividing the market value of similar business by their EBITDA and using the mean or median result as the multiple for valuing a business.

EBITDA takes out of the equation those items that might obscure how the Enterprise is really performing.

- The tax charge can be affected by the tax strategy of the Enterprise, the availability of tax losses brought forward from previous years, or the amount of tax allowances available for capital investment.
- Depreciation and amortization are dependent on the extent of capital expenditure by the Enterprise and may also depend on subjective estimates of the useful life of the plant and equipment.
- The amount of the interest charge depends on the Enterprise’s choice of how to finance its operations.
- By taking out these items the EBITDA gives a figure that is closer to the actual cash generated by the operations of the business.
- We have considered the Average EBITDA from the Financial Year 2016-17 to 2019-20 to arrive at the Fair Value of Shares of SSIL and FFL.

iii). **Market Value Method**

Market value of shares of a company quoted on stock exchanges - The market value of a listed stock carries significant weightage in the analysis of the equity value of the company. The price, at which the shares of a listed company are quoted on a recognized stock exchange, is an indicator of the value of the

company. This method is effective in various situations as market forces collectively determine the price quoted on the stock exchanges. The market value is an outcome of various factors like quality and integrity of the Management, present and prospective competition, yield on comparable securities, market sentiment, etc.

Since the shares of Transferor Company is involved in the Scheme is listed on stock exchange, we have considered the same while on the other hand the Transferee Company is unlisted company so Market Value Method is not considered.

For the Transferor Company we have considered the Average Market Price 21st May 2018 to 10th August 2018.

- 7.5 Accordingly, Fair Valuation of shares of the Transferor Company has been determined on the basis of Weightage of the Three Methods i.e. Net Asset Value Method, EBITDA Method and Market Value Method, and the Transferee Company has been determined on the basis of Weightage of the Two method i.e. Net Asset Value Method and EBITDA Method for the purpose of working out of share exchange swap ratio for merger.
- 7.6 Value of shares has been calculated on the basis of the latest Audited Balance sheet as on 31st March, 2018.

8. Share Exchange Ratio for the proposed Amalgamation:

On the basis of valuation exercise and after rounding off, we have valued equity shares of Transferor Company under the Net Asset Value Method, EBITDA Method and Market Value Method and Transferee Company under the Net Asset Value Method and EBITDA Method based on the audited financial statements of the companies as of March 31, 2018, with certain adjustments therein as indicated above. 4. VALUATION METHODOLOGY ADOPTED BY THE VALUER

In arriving at the exchange ratio of the equity shares for the merger of the FFL with SSIL we have determined the values independently but on a relative basis. We have considered the methods relevant and applicable, which included:

- 1) Net Assets Value Method
- 2) EBITDA Valuation Method
- 3) Market Value Method (Fair Deal Filaments Limited)

1) Net Assets Value Method

The asset based valuation technique is based on the value of the underlying net assets of the company on a Book Value basis. This method is also known as the Net Asset Valuation ("NAV") methodology. Considering the nature of business of the company and other facts and based on the discussions with the management, including the fact that the two companies are closely held companies and as informed, owned by the same group and upon the proposed restructuring, none of the stake holders are likely to be adversely affected, the asset based valuation technique seems to be appropriate for valuing the shares of the two companies. In other words, net assets (operating business assets) have been valued using book value as reflected in the Audited Accounts as at March 31, 2018.

2) EBITDA Valuation Method

"EBITDA Multiplier" method is generally used for the Enterprise, which has lower profit in initial year EBITDA stands for "Earnings before Interest, Tax, Depreciation and Amortization". It seems to use when business required substantial investment in initial year and with long gestation period. Key Factor in this method is cash generated by the enterprise prior to all discretionary expenditures. The EBITDA is the measures of cash flows from operations that can be used to support debt payment least in the short term. It provides better estimation of "Optimal value" when capital expenditure earns unwise or substandard returns. Earnings before interest, tax, depreciation, and amortization (EBITDA) are a measure of Enterprise profits and information in the Enterprise's financial statements. A multiple of the EBITDA is used to value an Enterprise, especially in relation to its competitors, where the multiple to be used can be obtained from dividing the market value of similar business by their EBITDA and using the mean or median result as the multiple for valuing a business. EBITDA takes out of the equation those items that might obscure how the Enterprise is really performing.

- The tax charge can be effected by the tax strategy of the Enterprise, the availability of tax losses brought forward from previous years, or the amount of tax allowances available for capital investment.
- Depreciation and amortization are dependent on the extent of capital expenditure by the Enterprise and may also depend on subjective estimates of the useful life of the plant and equipment.
- The amount of the interest charge depends on the Enterprise's choice of how to finance its operations.
- By taking out these items the EBITDA gives a figure that is closer to the actual cash generated by the operations of the business.
- We have considered the Average EBITDA from the FY 2016-2017 to FY 2019-2020 to arrive at the Fair Value of Shares of SSIL and FFL.

3) Market Value Method

Market Value of Shares quoted on Stock Exchanges-The Market Value of a listed stock carries significant weightage in the analysis of the Equity Value of the Company. The Price at which the shares of a listed company are quoted on a recognized Stock Exchange, is an indicator of the value of the Company. This method is effective in various situations as market force collectively determine the price quoted on the stock exchanges. The market value is an outcome of various factors like quality and integrity of the Management, present and prospective competition, yield on comparable securities, market sentiment, etc. Since the shares of Transferor Company is involved in the Scheme is listed on stock exchange, we have considered the same while on the other hand the Transferee Company is unlisted company so Market Value Method is not considered. For the Transferor Company we have considered the Average Market Price from May 21, 2018 to August 10, 2018.

5. CONCLUSION

- 5.1. We have reviewed the methodology as mentioned above adopted by the Valuer for arriving at the fair valuation of the equity shares of Companies and also reviewed the working and underlining assumptions adopted to arrive at the values under each of the above approaches, for the purposes of recommending a ratio of entitlement/exchange.
- 5.2. On the basis of the foregoing points, we are of the opinion that the valuation made by M/s. CNK & Associates LLP, Chartered Accountants is fair & reasonable for the proposed Share Exchange Ratio of 1 Equity share of Shahlon Silk Industries Limited for every 1 Equity Share of Fair Deal Filaments Limited.

While considering the Scheme, the Board perused the following documents and also took on record the same –

- a. Draft Scheme;
- b. The valuation report(s) dated August 17, 2018 issued by CNK & Associates LLP, which sets out the share entitlement ratio for the Scheme;
- c. Fairness Opinion issued by Mark Corporate Advisors Private Limited;
- d. The Report of the Audit Committee held on 22/08/2018;

Rationale for the Scheme

The merger of the Company with SSIL is based on the following rationale:

- i. The Company and SSIL, belonging to the same group of management, are largely engaged in the similar kind of business activities i.e. manufacturing of fabric on water jet looms. In addition to above, SSIL is also involved in manufacturing of fabric on air jet looms and rapier looms, which will be beneficial to the merged entity in diversifying its product portfolio pursuant to the Scheme coming into effect.
- ii. The Company and SSIL both carry out yarn preparatory facilities like sizing, texturising, twisting, crape etc.
- iii. The Company and SSIL both are the agents for Reliance Industries Limited in relation to sale of yarn product and thus, business of the Company and SSIL are complementary in nature and consolidation of business will be beneficial for both the companies and its shareholders.
- iv. Economics of scale will play a bigger role as the consolidated entity's operational efficiency will increase, which will in turn allow the merged entity to compete on a larger

scale in the industry, thus benefiting the merged entity and the shareholders.

- v. The amalgamation will enable the merged entity to build up a diversified product portfolio.
- vi. As on March 31, 2018, SSIL has a net worth of Rs. 61,71,32,000 (*Rupees sixty one crores seventy one lakhs thirty two thousand*) and the Company has a net worth of Rs. 19,16,98,000 (*Rupees nineteen crores sixteen lakhs ninety eight thousand*). The combined entity will have net worth of around Rs. 80,65,90,000 (*Rupees eighty crores sixty five lakhs ninety thousand*) which will enable the merged entity with more negotiation power for debt finance considering its size and financial strength further the merged entity will have option of equity financing.
- vii. This merger will provide an opportunity to leverage assets and build a stronger sustainable business. It provides an opportunity to fully leverage stronger asset capabilities, experience, expertise and infrastructure of both the companies and thus increased ability for promotion of business activities as well as for fund raising as may be required for business development.
- viii. Manufacturing of grey fabric and texturizing / various yarn value addition activities of the Company and SSIL are located at Block number 297 /298 of Limodara Patiya, Village: Karanj, Taluka Mandvi, District: Surat and both the companies share the common entrance gate. At Fairdeal Textile Park, Village: Mahuvej, Taluka Mangrol, District: Surat, SSIL has manufacturing facilities for manufacturing of various yarns, grey fabric at Block no. 692/A and the Company has its proposed factory site also located just adjacent to SSIL on Block number 692/A. Both the companies have their administrative office located at 3rd Floor Dawer Chambers, Nr. Sub-Jail, Ring Road, Surat which is partly owned by the Company and partly by SSIL. As major of the manufacturing sites of the Company are adjacent to/together with SSIL, this merger would lead to synergic benefits.

efficiency of operations and management, rapid growth of the entity, optimum utilization of its resources and minimization of the administrative and operative costs.

- ix. The merger will result in a value creation for the shareholders and stakeholders of the Company and SSIL as the combined amalgamated company will have improved efficiency, market share, financial structure, larger cash flows and stronger consolidated revenue and profitability.
- x. The merger of the Company with SSIL would result in consolidation of business activities of both the companies and will facilitate effective management of investments and synergies in operation.
- xi. There is no likelihood that any shareholder or creditor or employee of the Company and SSIL would be prejudiced as a result of the Scheme. Thus, the merger is in the interest of the shareholders, creditors and all other stakeholders of the companies and is not prejudicial to the interests of the concerned shareholders, creditors or the public at large.

Valuation

The valuation for the Company has been arrived at on the basis of working the Weightage of the Three Methods i.e. Net Asset Value Method, EBITDA Method and Market Value Method, and SSIL has been determined on the basis of Weightage of the Two method i.e. Net Asset Value Method and EBITDA Method for the purpose of working out of share exchange swap ratio for merger.

As per the valuation report dated August 17, 2018 provided by the Chartered Accountants, CNK & Associates I.L.P had determined the share exchange ratio to be 1:1 i.e. 1 (*one*) equity share of Rs.10 each credited as fully paid up in SSIL for every 1 (*one*) equity share of Rs.10 each fully

paid up held by them in the Company on basis of the valuation of the assets and liabilities of the Company carried out by them as provided in their report.

However, the Board of Directors of SSIL for the benefit of the public shareholders of the Company have decided to reduce the valuation of SSIL by issuing additional shares to the members of the Company in the ratio of 1:0.90 i.e. 1 (*one*) equity share of Rs.10 each credited as fully paid up in SSIL for every 0.90 (*point ninety*) equity share held by them in the Company. This will lead to additional allotment of shares of SSIL, which would in turn would increase the public shareholding in SSIL to approximately 26.94% of total issued and paid-up share capital of SSIL post Scheme coming into effect as against 25.19%, and thus consequently, reducing the consolidated promoter shareholding of SSIL and the Company.

Upon the Scheme coming into effect, in consideration of the merger of the Company into SSIL pursuant to provisions of this Scheme, and without any further application, act, deed payment, consent, acts, instrument or deed, SSIL will issue and allot 67,22,222 (*Sixty seven lakhs twenty two thousand two hundred twenty two only*) fully paid-up equity shares of Rs.10 each (the "*New Shares*") to shareholders of the Company in accordance with the terms of the Scheme. The New Shares will be issued by SSIL to such equity shareholders of the Company whose names are recorded in the register of members of the Company as on the Record Date in the ratio of 1:0.90, i.e. 1 (*one*) equity share of Rs.10 each credited as fully paid up in SSIL for every 0.90 (*point ninety*) equity share held by them in the Company.

If, after applying the New Shares Entitlement Ratio, a person eligible to receive equity shares of SSIL as set out in the Scheme becomes entitled to receive any fractional equity shares of SSIL, such person shall be entitled to receive one full paid share instead of any such fractional entitlement.

Effect of the Scheme on equity shareholders (promoter shareholders and non-promoter shareholders), employees and KMPs of the Demerged Company:

CERTIFIED TRUE COPY OF THE RESOLUTIONS PASSED BY THE BOARD OF DIRECTORS OF FAIRDEAL FILAMENTS LIMITED AT THEIR MEETING HELD AT 11:45 AM ON WEDNESDAY, AUGUST 22, 2018 AT REGISTERED OFFICE OF THE COMPANY SITUATED AT 3RD FLOOR, DAWER CHAMBERS, NR. SUB-JAIL, RING ROAD, SURAT-395002

APPROVAL OF DRAFT SCHEME OF AMALGAMATION AND RELATED MATTERS:

The Chairman briefed the Board of Directors of the Company (the "Board") about the resolution passed on 14/07/2018 wherein the Board had considered the consolidation of certain business activities of the group entities on basis of the opinion provided by M/s. Kannaujiya & Co., Cost Accountants, Surat, *vide* report dated 26/06/2018. The Board pursuant to said report *in principle* discussed and approved the proposal of Scheme of merger by Absorption of the Company by Shahlon Silk Industries Limited ("SSIL"), a company incorporated under the Companies Act, 1956 and having its registered office at 91, G.I.D.C., Khatodara, B/H.: Sub-Jail, Ring Road, Surat, Gujarat 395002, India ("*Scheme*"), subject to the approval of the draft Scheme by the Board. The Board also appointed various consultants and advisors to carry out the aforesaid process of merger.

The Chairman further informed the Board the aforesaid consolidation by way of a merger of the Company with SSIL will lead to synergies of operation and stronger and wider capital and financial base for future growth/expansion. The merged entity will incur lower cost of business thereby increasing the efficiency and providing the merged entity with a higher bargaining power.

The Chairman placed before the Board the (i) draft Scheme of Merger by Absorption, prepared by M/s. Rajani Associates, Solicitors; (ii) the Valuation Report dated August 17, 2018 prepared by CNK & Associates LLP in relation to the shares to be issued by SSIL to the shareholders of the Company pursuant to the Scheme; (iii) the Fairness Opinion issued by Mark Corporate Advisors Private Limited on the said Valuation Report; and (iv) Report explaining the effect of the scheme on each class of shareholders, key managerial personnel, promoters and non-promoter shareholders as required under the Companies Act 2013.

The Chairman further informed the Board that a meeting of the Audit Committee of the Board was held on August 22, 2018 in order to consider the draft Scheme. The members of the Audit Committee found the proposed Scheme to be in the best interest of the Company and its shareholders, creditors and other stakeholders and recommended the draft Scheme to the Board of Directors of the Company.

The Chairman informed the Board that the Chartered Accountants, CNK & Associates LLP had determined the share exchange ratio to be 1:1 i.e. 1 (one) equity share of Rs.10 each credited as fully paid up in SSIL for every 1 (one) equity share of Rs.10 each fully paid up held by them in the Company on basis of the valuation of the assets and liabilities of the Company carried out by them as provided in their report.

However, after detailed deliberation and discussions the Board for the benefit of the public shareholders of the Company have proposed to marginally reduce the valuation of SSIL by issuing additional shares to the members of the Company in the ratio of 1:0.90 i.e. 1 (one) equity share of Rs.10 each credited as fully paid up in SSIL for every 0.90 (point ninety) equity share held by them in the Company. This will lead to additional allotment of shares of SSIL, which would in turn would increase the public shareholding in SSIL to approximately 26.94% of total issued and paid-up share capital of SSIL post Scheme coming into effect as against 25.19%, and thus consequently, reducing the consolidated promoter shareholding of SSIL and the Company.

The Chairman further informed the Board that as a thankful gesture, and for the benefit of the public shareholders of the Company, despite of the 1:1 ratio determined by the Chartered Accountants, CNK & Associates LLP and Fairness Opinion, the Board has recommended that SSIL shall propose to issue and allot shares of SSIL to the shareholders of the Company pursuant to the Scheme in the aforesaid ratio of 1:0.90 instead of 1:1 as contemplated in valuation report.
